BATTERY WORLD 2020

Piacenza, Italy - 6/7 May 2020

Triatech s.r.l. is a world class battery distributor delivering energy solutions for hundreds of customers in Italy and abroad. We proudly supply under our registered brand Triatech® lead acid and lithium batteries covering different markets and applications: UPS, TLC, Data Centers, Fork Lifts and Platforms, Sweepers, Automotive, Special Applications, Solar and Renewable Energy.

No matter what your requirement could be, we have the perfect batteries from 2V batteries up to 520V batteries, for floating, cycling, starting as for deep cycle applications.

Triatech can make available to its customers a wide range of technologies and features, such as lead-acid, pure lead, high temperature, lead-carbon, AGM, GEL, Hybrid GEL-AGM, lithium (both of NMC and LiFePO4).

We provide advanced lithium batteries for Fork Lifts, AGV, UPS, TLC and Energy Stations with design life up to 5.000 cycles. Fast and opportunity charge are the major benefits, along with zero emissions, no maintenance and up to 40% energy savings.

Our highly trained personnel with an average of more than 25 years of energy experience will help you to find the correct battery for your need at the best price available. Let us show you why we are so proud of our people and products.

Quality, Reliability, Customer Centric, Speed, Integrity are our Imperatives.

Range of products & services

- LEAD ACID BATTERIES
- LITHIUM BATTERIES
- SECONDARY CELLS (RECHARGEABLE)
- DISTRIBUTOR OF BATTERY CHARGERS, CONVENTIONAL AND HIGH FREQUENCY
