

## Company Data

### CONTACTS

**LUIGI TERE0**  
CEO

**MARCO MONACO**  
SALES DIRECTOR

**PIERGIORGIO GIGLI**  
MARKETING DIRECTOR

### COMPANY FOUNDED

2011

### NUMBER OF EMPLOYEES

25

### ANNUAL TURNOVER OF THE COMPANY

EUR 4 million

### TURNOVER FROM BATTERIES

5%

### BANKS

Intesa San Paolo

### NOMINAL CAPITAL

EUR 115,000

### QUALITY CERTIFICATIONS

ISO 9001, ISO 14001

### PLANNED EXHIBITIONS

**Battery World 2020**

Piacenza, Italy - 6/7 May 2020

**Aumatech** was founded in 2011 by three people proceeding from large experience in machinery designing and manufacturing, mostly for the Automotive industry.

The company has always focused on technological research and outstanding local suppliers with specific know-how to gain customer confidence.

The company's product portfolio includes standard machines for plastic welding, featuring multiple technology (hot plate, infrared, ultrasonic and laser); special machines for Added Value Operations (AVO) on glass, plastic and composite, such as punching, cutting, welding, finishing, positioning, handling, coupling and testing operations; finally **assembly&automation solutions** for high cadency automated lines.

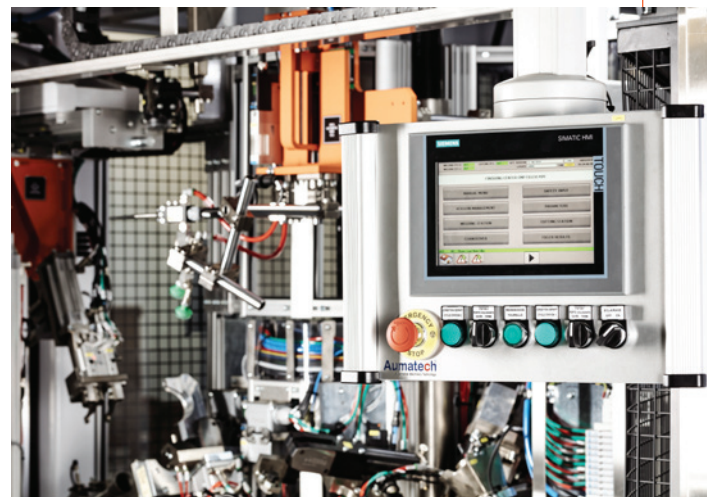

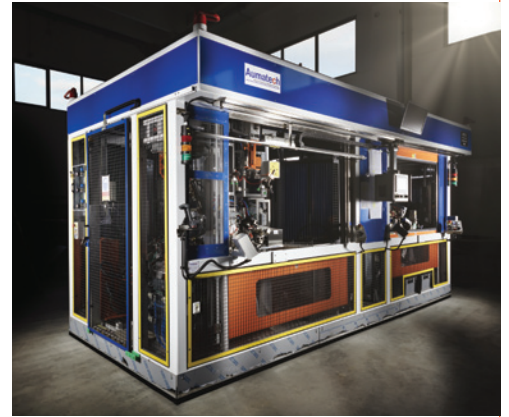

We take care of all production phases, assisting our customer from initial designing all the way through assembling and testing before final commissioning at customers's site.

We manufacture robust and durable machines able to work with JIS (Just in Sequence) production, giving priority to quality, safety, the environment and the territory.

We develop solutions for increasing productivity/saving costs by automation, cycle review, process simplification, introducing innovative technology when considerable.

Our innovation projects deal with e-mobility (battery pack's assembly, welding and testing solutions), e-fuels (composite cylinders LPG/CNG/H2, feasibility studies, development service, FEM, construction, prototyping, plant realization, training and founding support) and e-machinery (ergonomic, energy saving and full electric solutions carried on by our machines): focus is put on both the planet's (sustainability) and end-user's (ergonomics and safety) issues at every stage of development.

Aumatech is deeply committed with its customers to reach the best possible compromise of affordability, quality and reliability.

## WELDING MACHINES/one

Aumatech

## Range of products&services

- BATTERY PACKS ASSEMBLY SOLUTIONS, FROM SINGLE STATIONS TO FULLY AUTOMATED LINES INCLUDING WELDING AND TESTING UNITS
- PRODUCTION LINES FOR LPG/ CNG/HYDROGEN COMPOSITE CONTAINERS

Contrada Collemartino SN - 66050 San Salvo (CH) - Italy
